

Satwik Mani Tripathi

Frontend Developer & UI/UX Designer

manitripathisatwik@gmail.com | fluxfolio-gold.vercel.app | github.com/1nonlycSatwik | uprisingstudios-ytbr.vercel.app | Lucknow, UP

SUMMARY

Frontend Developer and UI/UX Designer with hands-on experience building production-grade web apps and design systems. Founder of Uprising Studios — managing full project lifecycle from Figma prototypes to deployed React applications. Skilled in translating user needs into clean, accessible, and visually consistent interfaces. Pursuing B.Tech in Computer Science at Rishihood University (Newton School of Technology).

EXPERIENCE

Founder & Lead Designer — Uprising Studios

Jan 2026 – Present | Remote

- Founded a solo freelance studio delivering end-to-end web design and digital branding for small businesses and startups.
- Manage every project stage: client discovery, Figma wireframing and prototyping, React development, and Vercel deployment.
- Delivered 3+ brand identities and responsive websites with consistent visual systems across all digital touchpoints.
- Built and maintained a custom Express.js + TypeScript API with Pino logging and esbuild, deployed on Vercel with CI auto-deploy.

PROJECTS

Designer Portfolio | React · Vite · TypeScript · Express.js · Vercel — fluxfolio-gold.vercel.app

- Built an OS-style interactive portfolio with draggable windows, layered modals, and a bento grid layout.
- Designed the full system in Figma — grids, component library, interaction states — then implemented in React + TypeScript.
- Companion API server (Express.js, TypeScript, Pino, esbuild) deployed on Vercel with auto-deploy on push to main.

SatKart | React · Node.js · Express.js · MongoDB · JavaScript · CSS

- Built a complete e-commerce frontend: product grid, product detail pages, cart, and checkout flow.
- Integrated a MongoDB backend to persist user accounts, cart sessions, and order records across visits.
- Self-directed project to understand how design decisions translate to real user behavior and conversion rates.

Edusity | Figma · UI/UX Design

- Designed a full learning platform UI: homepage, course catalogue, lesson pages, and student progress dashboard.
- Prioritized clarity and scanability — students always know where they are and what their next action is.

EDUCATION

B.Tech — Computer Science — Rishihood University, Newton School of Technology Aug 2024 – Present | Sonapat, India

- Relevant coursework: Data Structures, Web Technologies, Object-Oriented Programming, Database Management Systems.
- Active focus on UI/UX design and full-stack JavaScript development alongside the core CS curriculum.

TECHNICAL SKILLS

Frontend: React, Vite, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, MongoDB, REST APIs, Pino, esbuild

Design: Figma, UI/UX Design, Design Systems, Wireframing, Prototyping, Canva

Tooling & Other: Git, GitHub, Vercel, npm, Python, Visual Branding

INTERESTS

Interactive Web Experiences • Digital Branding • UI Animation • 3D Design & Environments • Open Source
